

NoVa Maker Educator Meetup 2019 Embrace the Messiness of Learning

Sponsored by the Virginia Society for Technology in Education

As educators, we all know learning is messy. No two students learn the same way and at the same pace. Rather than create structured Maker programs, we should embrace the messiness of learning.

Maker Faire NoVa is proud to present its 3rd Annual NoVa Maker Educator Meetup from 10am – 1pm as part of Maker Faire NoVa on June 2, 2019 at George Mason University, Fairfax campus. We are excited to have two keynote speakers this year.

Keynote Speakers

Sylvia Martinez

Author of *Invent to Learn*

George Meadows

Profession of Education, University of Mary Washington

This year the MakerEd meetup will be more interactive. In addition to our keynote speakers, we will have lighting talks, breakout discussions, and workshops with topics decided by attendees. It will be an opportunity for Maker Educators to network and learn from their peers in the region. After the Meetup, you're free to explore Maker Faire NoVa until 5pm.

Call for Proposals:

Have a project or idea you wish to share? A workshop you'd like to run? Or is there a particular topic you'd like to know more about? Please let us know!

Maker Ed Meetup participants **must** register in advance and have a Faire ticket. There is no additional cost for the Meetup. There is a discount code for Educators when you register.
